HEWITT'S GAGE OF BATTLE.

IT CAUSES A BITTER FEELING AMONG THE WARRIORS OF TAMMANY.

His Fulmination Against the Wigwam Said to Destroy All Hope of Union Between the Factions-Commissioner Croker De-clares that the Mayor Has Been Hostile to Tammany for Some Time.

Mayor Hewitt has once more set the tongues of the local politicians a-wagging. He has kept them busy for months discussing his letters and interviews, but yester day's remarks of the Mayor to the City Hall reporters have created a great deal of excitement and gossip among the municipal statesmen of all parties, organizations and fac-

The Tammany Hall warriors are the ones who take the most exception to the Mayor's latest manifesto and the breach between the Fourteenth Street Wigwam and the City Hall is wider than the distance. Here are some of the points in Mayor Hewitt's interview that have rolled the Wigwam chiefs :

"I have not always appointed men to office that Tammany Hall had recommended to me. That is the only grievance they can possibly have against me.

"If Tammany Hall and the County Democracy should call upon me as a United Democracy and offer me a renomination, I

should refuse it.

"At present I am with Tammany Hall—
'agin' the Mayor.
"It would only be an exigency that would induce me to serve another two years as Mayor."

"Such an exigency would undoubtedly arise if Tamman, Hall should put up a candidate for the office for the sole apparent purpose of securing the control of the appointive power to the offices in the gift of the Mayor. The question before the people would be: 'Does the government of the city of New York exist for the sole purpose of supplying Tammany Hall with patronage?' I should expect every good citizen, whatever his polities, to be arrayed against that principle."

Mayor Hewitt had not strived at his office at noon to-day. It is not likely, however, that at present he will have anything more to say on the Mayoralty question. He will probably await to see the effect of his latest interview, and to ascertain what position Tammany Hall will take.

Commissioner Croker was on his way to his country residence at Saybrock, Conn., when Such an exigency would undoubtedly arise

and our organization has certainly not given him any cause for the attack.

Two years ago we proposed him for Mayor, and he was offered the nomination. No pledges were asked him. He has already admitted that he was tendered and accepted the mination without any question having een asked him, and without a suggestion ing made to him about his acts it elected

"I do not with to be drawn into any controversy with Mayor Hewitt, nor do I wish to give an opinion of the future course to be pursued by Tammany Hall,

"I will, however, repeat what I said for publication some time ago that Tammany Hall has the interest of the city at heart, and will be found when the time comes supporting a candidate for Mayor who can be voted for by all good Democrats and citizens."

Commissioner Craker whose not publicly

for by all good Democrats and citizens."

Commissioner Croker, while not publicly proclaiming that he is opposed to a union with the County Democracy and without giving an opinion that there will be harmony, is frank enough to admit that he believes nonunion with help the N tional and State tickets fully 15,000 votes in this city.

He has said in conversation with friends that the rivalry between the two organizations will bring out the Democratic voic. He also pooh-poohs the fear of selling out the national and State tickets for the local treket. He says that any attempt to sell out Oleveland would be found out in five minutes and stopped.

Cleveland would be found out in ave manues and stopped.

He does not believe that Mayor Hewitt could be elected if nominated by the County Democracy, as he thinks the Republicans will nominate a straight ticket in a Presidential year tand that Mr. Hewitt cannot possibly pollower than 95,000 Republican yotes, and cermore than 25,000 Republican votes, and certainly not more than 25,000 Democratic votes. This total added to the Independent vote that he might get would not elect him.

Then Commissioner Croker thinks the fig-

mes are too high, as he is confident that
Mayor Hewitt's strength among the Republicans would be overestimated if
their party nominates a strong Republican for Mayor. And the Commissioner does not believe that Mayor Hewitt is popular with the Independent voters, very many of whom he has antagonized

many Hall are not deserved. We have never demanded any appointments from him.

"Whenever any vacancy has occurred we have recommended him a list of good and capable men to select from. That is all we have ever done.

"He is now trying to place Tammany Hall on the defensive, and I will not say what in my opinion is his object. He will, however, iail in his object.

A prominent Tammany Hall Chief, who did not care to have his name used, said: "I hope the County Democracy will nominate Mayor Howitt. It would break up their organization. I know of at least' eight County Democracy district leaders who would bolt the organization should he be renominated.

"Judge Murray has openly declared he will not support Mayor Hewitt. Yes, sir, there will be nothing left of the present County Democracy organization if Mayor Hewitt should be the candidate of that machine. The break of the Purroy people would be nothing in comparison to the break of the anti-Hewitt County Democrats."

WENT RIGHT TO HIS DESK.

MR. DEPEW WAS BUSILY AT WORK EARLY THIS MORNING.

The Great Man Himself Not More Cheery Than the News He Brings-A Prosperous Season Promised for American Farmers in Supplying Grain to Europe-Foreign Politics Nearing a Crisis.

Dr. Chauncey M. Depew has lost no time in getting into harness again, for at 10 o'clock this morning he was in the President's office at the Grand Central Depot busily engaged in posting himself up on what had occurred during his long absence abroad, and holding conferences with the other officers of the

He was looking as bright and cheery as schoolboy just home from vacation, when the reporter of THE EVENING WORLD WAS ushered into his private room, and the latter was greeted thus jovially :

Well, you see I got here on time, thanks to a combination of Dutchman and railway, and mighty glad I am to be home again. I told the captain that all the New York Central road would be down to see me come in, and that the eyes of the American nation were upon him. He told me he'd get to New York at 1.10 and we got here at 2, which was

near enough for all practical purposes,
"Seriously," continued Mr. Depew, "I
had a most interesting trip, and I come home
feeling very well satisfied with the outlook
for the United States from a business point

for the United States from a business point of view."

"In what respect?"

"Why, the grain crop has been a failure all over Europe, both in England and on the Continent, and if speculators here do not corner the market and put up prices so high that the Europeans will have to fall back on Australia and India, there is going to be lots of money rolling into the pockets of the farmers this tall. I don't think the prospect of a prosperous business year was ever more brilliant than it is just now."

"In my travels on the Continent, what

than it is just now.

"In my travels on the Continent, what impressed me most was the volcanic nature of the political situation in France and Germany. It's a great deal more serious, I believe, than most people here imagine. I had the advantage of meeting many persons of prominence in diplomatic circles, and got information first hand. Emperor William is a fighter, and now he has a military establishment of and now he has a military establishment of 2,000,000 men behind him he wants to do

mething.
"The sole object of his visit to the Czar recently was to secure Russia's neutrality in case of an outbreak with France. He did not succeed, because the Czar would promise it only on condition that he should have Bulgaria, and so give him an opening into Austria, which would hardly have been conistent with the terms of Germany's allian

The little provocations which Germany

with Austria.

"The little provocations which Germany is continually giving France, especially in Alsace and Lorraine, show that the Emperor is spoiling for a fight and doing all he can to stir up hostilities, and the French are just as active on their side. It has got so now that the German Embassy in Paris will not vise any passports of Alsacians who wish to return to their country after going into France.

"Mrs. Depew had with her a maid who was an Alsacian and had been with us for several years in New York. She wanted to see her old mother, who lived in one of the little towns in Alsace, and we decided, on our way to Germany, to pass through that country. When I went to have the passport vised at the German Embassy, they wouldn't pass the girl unless she would get a record of her birth, &c., from the Mayor of the town where she had lived, which would take about seven weeks. The American Minister said he could fix the thing all right, and they promised to give the girl her passport; but when she went to get it they refused to give it, and we had to leave her behand fused to give it, and we had to leave her be

"France is also in a very bad condition politically, for everything in the Government is upside down, and the uncertainty as to how long the existing form will prevail keeps people in a distracted state."

"Does the Presidential campaign here arouse much interest abroad?"

arouse much interest abroad?"
On the Continent not a particle, but in England it is everywhere discussed with interest. You cannot go into a store in London or any large city where, if you are known or suspected to be an American, they will not ask you all about it.

'The general opinion over there is that all the Democrats are free-traders in the English

Prof. Prector's Case Was Iso'ated, and There Will Probably Se No More Like It - The Dead Astronomer's Remains Still at North Brother's Island-A Young Actress Volunteers to Go South as

Side by side on the bulletin board in the offices of the Health Department this morning were the announcements that there is not case of yellow fever or of small-pox in the

These bulletins were the same which were posted yesterday afternoon and Clerk Golderman said that there had been no occasion to change them. He accurately proclaims the condition of the city with regard to these two scourges, and the failure of development of a new case would seem to indicate that Prof. Proctor's was of an isolated character and carried no infection with it.

The dead astronomer's remains still remain on North Brother's Island uninterred, and will so remain until the arrival of Mrs. Proctor with directions as to its disposal.

Mrs. Proctor was notified of her husband's severe iliness by Dr. Edson on Tresday, and started from her home in Oakland, Fla., on Wednesday last. She should have reached here this morning, if she had not been detained for quarantine or other cause, but she had not arrived at noon, or, at least, she had not made her presence known if she was in the city.

Proprietor W. G. The guests at the Westminster are not at all alarmed over the yellow fever matter, and seem to have almost forgotten that there was a fatal case in the hotel on Tuesday last.

A meeting of the Board of Health will be held this afternoon, when the question of meeting and fighting yellow fever in this city may be discussed.

It was reported this morning that Miss Nadige Doree, a pretty young actress, formerly with Mrs. Langtry's company, had volunteered to go to Jacksonville as a yellow-fever nurse, giving up for the purpose a promising theatrical engagement for which she had been studying. BYRNES'S BIG HAUL

Jewelry Swindler Schnell Brought from Canada.

Caught Trying to Sell the Stolen Diamonds.

He Cheated Eleven Malden Lane Merchants and Fled with His Booty-Arrested in Toronto While Trying to Sell the Jowel and Handed Over to Our Detectives-Now in a Cell at Headquarters.

Charles W. Schnell, the Brooklyn may who swindled downtown jewellers out of \$11,000 worth of jewelry and diamonds, is in a cell at Police Headquarters, and Inspector Byrnes has recovered or will secure all the brilliant booty which the young optician ran away with.

Schnell had desk room in Ludwig, Misser & Co.'s store, 18 John street, and on a ples that he had an opportunity to dispose of some jewelry, secured \$500 worth of dia monds.

Following up this advantage, he played the memorandum check dodge and swindled the following firms: Hadeilpy & Sons, 17; Broadway, two diamonds worth \$475; Block & Co., 14 Maiden lane, four diamond rings worth \$1,000; E. Adler & Co, 14 Maidez lane, diamond earrings and studs worth \$1,800; Mather & Wentworth, 16 Maider lane, diamond earrings and studs worth \$800 Marten, Copeland & Co., 9 Maiden lane, gold chains worth \$600; P. Brethmar, 64 Nassat street, one diamond worth \$400; S. M. Far.

Several other firms were victimized by the shrewd Brooklynite. Schnell packed up his effects, closed his house in Gates avenue. Brooklyn, and started with his wife and children for Springfield, Mass.

Inspector Byrnes was called upon, and he sent telegrams to Canada, satisfied that the American thief would seek shelter there. Detectives Heidelberg and Sheridan traced Schnell to Springfield, captured two watches with his wife, traced him to Albany and learned that a man answering his description had taken passage on a train for Toronto, Canada.
